PSC SC  
MAIL / DMS

Please do not allow Duke to abuse customers who can afford higher energy bills.. When I moved here from north to SC the energy rates were low&competitive... Now with more users than ever& and energy conservation in place.. They have want more \$\$.. First cut costs like other industry's and don't penalize public for this.. They ask for 16% when Duke actually wants 5-7% but start high then retreat allowing public a sense of Duke defeat... Please do not fall a victim... Thanks for your service & fairness to all...
